MORE ALARMING

Is the Situation in Turkey as Each Day Passes.

THE PORTE PROMISES THE REPLY

To the Ambassadors' Demand That Order be Restored Within Two Days—Police Kept Busy Watching Everything and Everybody—A New Cabinet Formed.

CONSTANTINOPL, Nov. 7.—A new Turkish ministry has been formed as follows:

Hali Rifat Pasha, grand vizier.
Said Pasha, president of the council of state.

Towlik Pasha, minister for foreign affairs.

Hassan Pasha, minister of marine.

Riza Pasha, minister of war.

Memduh Pasha, minister of the interior.

Abour Rahman Pasha, minister of justice.

Sabri Pasha, minister of finance.

Aridi Pasha, minister without portfolio.

Riza Pasha was minister of war in the last cabinet. Hassan Pasha was minister of marine in the last ministry. Hali Rifat Pasha is the ex-minister of the interior and Towlik Pasha has just come here from Berlin, where he was Turkish ambassador to Germany. Finally, Said Pasha was minister for foreign affairs in the late cabinet and previously grand vizier.

The Turkish minister for foreign affairs has promised to give the ambassadors of the powers a definite reply within two days, as to what steps the porto intends to take for the restoration of order in Armenia and to provide for the protection of Christians in that part of the Turkish empire.

This was the point especially alluded to by the ambassadors on Tuesday last, when they called separately and represented that the present state of affairs in Armenia could not be allowed to continue and that if adequate measures were not shortly taken to bring about the restoration of order the powers would be compelled, acting in concert, to take their own steps in the matter. No combined action of such grave importance upon the part of the powers has been taken for years and the fact that the porto was reminded of the intervention of the powers in Syria at the time of the massacre of 1860, is considered as a direct warning to the sultan that Europe will intervene to restore order in Armenia, unless the Turkish government acts promptly.

As each day passes the situation becomes more and more alarming, and adds to the difficulty of the task before the porto, and possibly before the European powers. From Syria, especially, the most disquieting rumors are coming, and that they are based on facts is shown by the mobilization of twenty battalions of redifs out of the sixty available, and the steps being taken to dispatch them as promptly as possible to that portion of Asiatic Turkey. This lends color to the report that the Armenians are receiving support from unexpected sources, and that the Turkish government may soon be face to face with an open and widespread revolt against the rule of the sultan.

Arrests of Armenians and Turkish suspects are constantly being made here and elsewhere, but owing to the press censorship, few facts in this connection are obtainable. Possibly the most grave turn in recent events lies in the fact that the dissatisfaction against the rule of the sultan has extended to the Turkish army and navy, and that the palace officials are in a state of the greatest alarm. Nobody here would be astonished to hear at any moment of an outbreak in the palace itself; in fact, people well versed in Turkish affairs assert that this is among the immediate possibilities, and that only a prompt show of force upon the part of the European fleets can avert it.

Trustworthy reports from Erzeroum state that it has been established beyond dispute that the Turkish troops took part in the recent massacre and pillage of Armenians there, and clear evidence of this fact will be placed before the representatives of the powers.

Private accounts represent the condition of the Asiatic provinces of Turkey as being deplorable. A reign of terror is said to exist and bloodshed and robbery are of daily occurrence.

The police of this city are kept busy night and day watching everybody and everything. To such an extent is this system of police surveillance carried that two servants in the employ of English merchants have been arrested while returning from the post office with letters and newspapers. They latter were seized by the police, in spite of the protests of the servants, and were carried away to the police department for investigation. The English merchants complained to the British chargé d'affaires, the Hon. Michael Harbert, and the latter has made strong representations to the porto on the subject.

Of course such a state of affairs cannot be allowed to exist much longer, as the lives of all Christians in Armenia are in danger and there is hourly expectation of the most serious trouble in almost every part of the Turkish empire. The more calling out of the army reserves will have little or no effect upon the situation, as the troops cannot be relied upon in such an emergency.

The wretched condition of Turkish finances bars anything like wholesale and energetic action upon the part of the Turkish government, unless a holy war is declared, and that could only be done by inflaming the religious fanaticism of the Turks against the Christians. This, it is believed, the porto would not hesitate to do in the case of an invasion of the Turkish dominions, but such a step would not be calculated to suppress internal disorders, the basis of which should be the protection of the Christian population of Armenia.

Hali Rifat Pasha, the new grand vizier of Turkey, has the reputation of being an able administrator. He has held numerous high posts and is a man of broad views, judged from a Turkish standpoint. He is expected to have a moderating influence between the Moslems and the Christians, but it is not thought that he will be able to do anything of a remarkable nature at the present serious juncture of affairs in the Turkish empire.

AGAINST ROOSEVELT.

The Police Commissioner May Be Legislated Out of Office.

New York, Nov. 7.—Talk in political circles now turns on the legislation out of office of Theodore Roosevelt and the other police commissioners of this city. It will be urged before the legislature that Roosevelt has risen from a municipal sensationalist into a national mischief-maker, and that another year of his administration will increase the Tammany majority so that New York state will be lost to the Republicans.

The possibility of this action on the part of the legislature was discussed some months ago. Later on it was brought to the attention of several national Republican leaders who happened to be visiting New York. The discussion was renewed a week ago, when the local leaders foresaw a victory for Tammany. Now it is settled that the programme will be pushed through as early as possible in the legislative session.

The Platt men charge the Strong administration with the blame for the present situation. Observers of the campaign, as conducted at Republican headquarters, agree that Mr. Lauterbach and his lieutenants made the most heroic efforts to save the ticket. A little group of politicians was found in the anteroom of Chairman Lauterbach's law office. Among them was George R. Davis. "One more year of Roosevelt," he said, "and nothing would be left for us in this city. He will go just as soon as the next legislature gets down to business."

FORAKER TALKS.

The Future Senator tells What Caused the Landslide.

CINCINNATI, O., Nov. 7.—Ex-Governor Foraker, speaking of the result of the elections, said:

"The great cause to which this victory should be attributed is the lack of confidence in the ability of the Democratic party to successfully manage the affairs of this country. Their failure has been lamentable. But another cause that has helped us greatly has been the character of the speeches ex-Governor Campbell has been making. From first to last he has conducted his campaign on a low plane."

"Irre, Gorman, Hill and Carlisle are all condemned and overthrown, and these four men represent all the features, phases and conditions of Democracy. New Jersey and Massachusetts have gone the way of the rest of the country. This victory settles the contest for next year, no matter who may be nominated for president by the Democrats, and no matter on what platform. The country will not have anything more to do with Democracy. You will not see another Democratic administration at Washington in thirty years. I don't know who will be our candidate for president, but Ohio will be Governor McKinley. His state has done so grandly in this contest that we have positive claims on the national convention."

A FAMILY CREMATED.

six Persons Perish in a Burning Brooklyn Tenement.

NEW YORK, Nov. 7.—Fire started on the first floor of a tenement, No. 311 Van Brunt street, Brooklyn, shortly after 1 o'clock this morning, in which a family of six persons lost their lives. They were: Charles Ryan, aged forty-nine; Mrs. Ellen Ryan, forty-five; Johanna Ryan, twenty; Sarah Ryan, seventeen; Maggie Ryan, fourteen; Lizzie Ryan, twelve.

The fire started from a gas jet in a hall on the ground floor. It burned out Finnegan's saloon, on the ground floor, and roused Margaret Welch and her four children on the second floor. The stairway being on fire, they went to the windows, from which they were rescued by policemen. The fire quickly got to the third floor, which was unoccupied. The siren was heard to have sounded.
